

Find a Leading Researcher...

Kathryn Bennett

Knowledge synthesis, translation and implementation in youth mental health

Terry Bennett

Development and mental health of children with ASD

Khrista Boylan

Classification and treatment of youth with oppositional defiant disorder

Michael Boyle

Contextual influences on child health over the early life-course

John Cairney

Epidemiology of mental health and mental health service use

Jennifer Couturier

The etiology and treatment of adolescents with eating disorders

Chuck Cunningham

Modeling children's mental health service delivery preferences

Scott Davies

Determinants of school achievement

Jim Dunn

Impact of housing & neighbourhood interventions in healthy child development

Mark Ferro

Children with physical illness and mental disorder

Stelios Georgiades

Classification and life-course of children with autism

Kathy Georgiades

The health of immigrant children and children exposed to diversity

Andrea Gonzalez

Biological processes and early adversity

Geoffrey Hall

Neurodevelopmental disorders and psychopathology

Susan Jack

Community approaches to preventing family violence

Magdalena Janus

Social determinants of children's health and transition to school

Ellen Lipman

Child psychiatric epidemiology; community-based intervention studies

Harriet MacMillan

Prevention of family violence

Alison Niccols

Infant/child development; parent-child interaction

Roberto Sassi

Neurobiological mechanisms of mood disorders

Louis Schmidt

Socio-emotional development; developmental psychophysiology

Noam Soreni

Cognition and neurobiology of pediatric obsessive-compulsive disorder

Ryan Van Lieshout

Prenatal programming of mental disorders, parental psychopathology effects
